Esprit de Soleil

49

Esprit de Soleil ... Spirit of the Sun. Designed to satisfy your calling to the sun and water, the Hustler 49 is unlike any other performance boat in the world.

With top speeds approaching 80 mph, one could easily assume that the 49 Esprit de Soleil is a one track design. With four Yanmar diesels coupled to two speed transmissions and the unique surface drives, the 49 comes on plane, accelerates and keeps seas like no other.

Cruising economically and effortlessly at 60 MPH leaves you more time at your destination to relax and enjoy the sun.

Seating for five to six people and a huge sun pad allow your passengers to relax and enjoy the ride in complete comfort. The spacious swim platform with molded steps make swimming and diving as easy as using your backyard pool. A vast storage area below the swim platform securely holds all of your toys. Lounging in the warm sun with a tropical drink from the built in bar with sink and icemaker will help you forget the world that you left behind.

Below decks, accommodations rival those of a five star hotel suite. Color coordinated Corian counters in the galley with microwave, cook-top, sink and refrigeration allow extended stays 'on the hook' and away from the bustle of the docks. Leather seating and a full DVD surround sound entertainment system are standard equipment. Situated as far aft as possible, the stand up head with a sink and shower has headroom to spare. Forward, the private stateroom's vast berth and storage will have you skipping the hotel room and spending quiet nights on the boat. Solid cherry cabinetry and mood lighting complete the luxurious picture.

The Esprit de Soleil is a one track design ... satisfy and renew your own spirit and soul, with sun and relaxation. Travel with your own Spirit of the Sun.
